

ZERO TOLERANCE PPE - Kingspan

What Happened:

We have seen an increased number of drivers arriving at Kingspan and Customer sites without the minimum PPE needed.

Please ensure you have the required PPE for working at Kingspan sites and also for when delivering to Kingspan customer sites, these are generally busy building sites and additional PPE is required once on site.

Drivers arriving without the correct PPE will be rejected for loading and sent away to purchase any missing items.

You are reminded that PPE MUST be worn at ALL TIMES when on site!

It is recommended that Gloves be suitable and appropriate for the task and should offer good grip and protection from sharp objects.
