

the **sense** of logistics

Sliding Roofs

Visual Fault Finding - Sliding Roof

Problem

1. Heavy pushing on Opening/Closing

Cause

1. Sloping/uneven ground

2. 5th Wheel High/Low

Solution

1. Pull on to level ground

2. Inflate/deflate air suspension

Visual Fault Finding - Sliding Roof

Problem

Roof Sticks or Jams and/or unable to disengage locking pins

Cause

1. Twist in trailer frame
2. Uneven Ground
3. Curtains closed and tensioned

Solution

1. Pull forward to align body
2. Release curtain tension

Visual Fault Finding - Sliding Roof

Problem

Roof Sticks or Jams and/or unable to disengage locking pins

Cause

1. One or both curtains open
2. Barn doors open
3. Sticky or dirty tracks or runners

Solution

1. Draw curtains closed
2. Secure rear doors
3. Re-align roof with opposite side

If they don't work then defect the trailer
